

PROTECTING

THE SAFETY OF STUDENT ATHLETES

NATIONWIDE

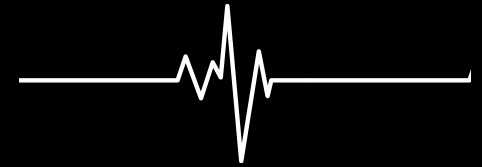

Through Preventative Cardiovascular Testing

UNDIAGNOSED

Cardiovascular Abnormalities

ARE A REAL THREAT TO YOUR PLAYERS

- On average, every 2-3 days a young athlete dies from **Sudden Cardiac Arrest** in the US
AHA, Dr. Jonathan Drezner
- A college male basketball player has a higher risk of death due to **SCA** than from an automobile accident, suicide, or homicide
Dr. Kimberly G. Harmon
- The majority of athletes (60-80%) who experience **SCD** do not have recognized warning signs or symptoms prior to events
Journal of the American College of Cardiology
- 40% of athletes with underlying cardiac conditions experience **SCA** outside of physical activity JACC

PREVENTATIVE TESTING

Is Your First Line of Defense

CAPPO Health is the Industry Leader in On-Site Diagnostic Testing

CAPPOHealth

Through our athletic division, CAPPO Health, we bring comprehensive cardiovascular testing to high schools, colleges, universities, and sports facilities across the country

Our Program

EASY & EFFICIENT

1

CHOOSE THE DATES/TIMES MOST CONVENIENT FOR YOU, YOUR STUDENTS, AND YOUR SCHOOL

2

STREAMLINE STUDENT REGISTRATION THROUGH A SECURE ONLINE SCHEDULING PORTAL

3

WE COLLECT STUDENTS' DEMOGRAPHIC AND HEALTH INSURANCE INFORMATION TO COMPLETE REGISTRATION

4

WE SHIP NECESSARY SUPPLIES AND EQUIPMENT, AND TESTS ARE PERFORMED BY QUALIFIED TECHS

5

SIGNIFICANT FINDINGS ARE RELAYED IMMEDIATELY; DETAILED RESULTS* ARE PREPARED IN 14-21 BUSINESS DAYS

*OUR READING PHYSICIANS ARE ALL BOARD CERTIFIED

We rent your facility for fair market value

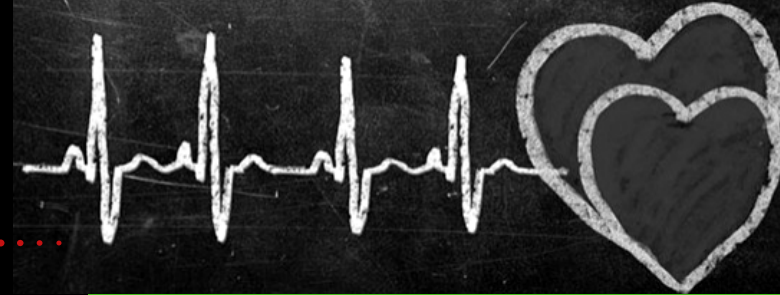

Our Welcome Kit provides you with all the info you need for testing

We send you marketing materials to help promote your school's testing

OUR TESTING MODEL

UNMATCHED

EARLY DIAGNOSIS

Empowers Student Athletes

Non-Invasive
Vascular
Ultrasound

- Risk factors common to athletes, such as dehydration, trauma, and long travel, make them more susceptible to blood clots, which can break free and cause pulmonary embolisms

EKG | Echocardiogram

- There are serious cardiac abnormalities that can be detected through an echocardiogram, but not through an EKG, and vice versa
- We apply the **Seattle Criteria** to the reading of student athlete EKGs
- Our echoes routinely confirm **true positive findings** in EKGs and **refute those that are false positives**
- We identify heart conditions that are **imminently life-threatening** and those that may require **intervention down the road**

CAPPO FOCUSES ON THE TOTAL **CARDIOVASCULAR HEALTH** OF YOUR ATHLETES
